### TERM 4

This term, we have a lot of interesting things happening around animals. The children are so excited about our upcoming zoo visit, they loved the performance Imagine, and I will be bringing back the leaf insects, which have grown a lot! We will also be hatching chickens, which is super exciting! I know the children love animals, so I will be listening to their ideas and interests, and we will no doubt learn some great things in the coming weeks. If you have anything you can contribute or show please let me know.

### CANBERRA THEATRE - IMAGINE

The preschool excursion to the Canberra Theatre to see Imagine was a wonderful experience for the children. They were excited from the very beginning, especially enjoying the bus ride to and from the theatre. At the show, the kids were captivated by the colorful performance, lively music, and imaginative storytelling about using your imagination to explore different worlds where animals live. They watched attentively, and there was lots of laughter and happy chatter afterward. The whole outing was a memorable adventure that definitely sparked joy in the children.

### MYSTERY BAG - SNAKE BITES

The Mystery Bag is the children's opportunity to bring something exciting to share with the class and teach us something new or inspire us to learn something. Matthew's Mystery Bag was very exciting and a great reminder. He told us about venomous snakes and how they bite. He brought a snake bandage, and we demonstrated what to do if bitten by a snake. The children were very interested.
